Aspirational Model

Control your future or be a victim of the future

Futures-Based Agile Thinking

Inspiration Phase – (2010-2011)

- Implemented Scenario-Based Methodology (Alternative Futuring)
- Identified 4 Transformational/Environmental Issues

Ideation Phase – (2011-2012)

- Developed 8 Strategic Themes from 854 Strategic Implications
- Postulated 5 axioms --- Evolved 6 Pathways to the future
- 3 integrative thrusts : leadership development; wisdom; resource stewardship

Implementation – (2012-2013)

- Framework for mapping the present to the future
 - Vector to White House summit on creating wellness
 - Summits as fast-moving pacing events
 - Learning Labs and Focused Meetings
 - Support Team / SMEs

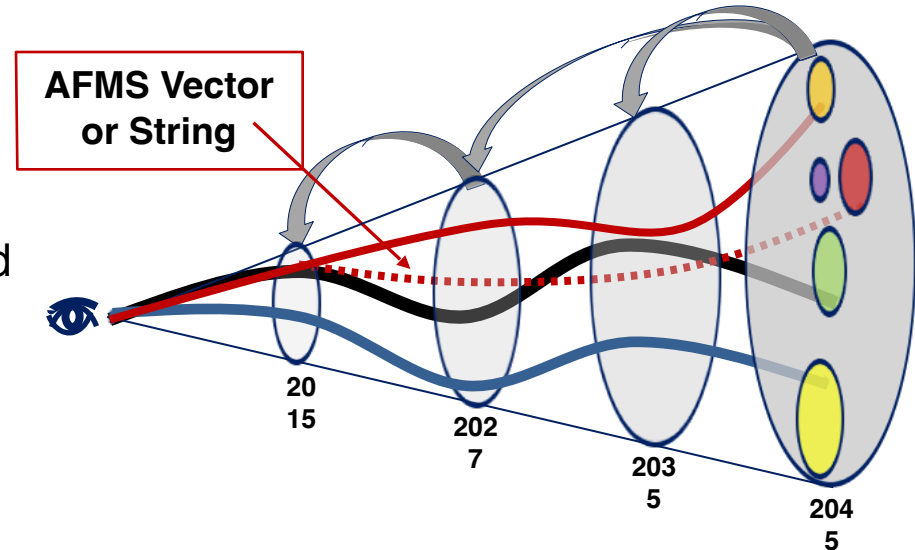

Strategic Themes

- Strategic Themes

- Strategic Planning and Alliances
- Healthcare Diplomacy
- Recruiting and Training
- Translational Research
- Disaster Response
- Information Assurance
- Patient Centric Healthcare
- Surveillance, Prevention and Control
- Meaningful Measures
- Challenging Ethics

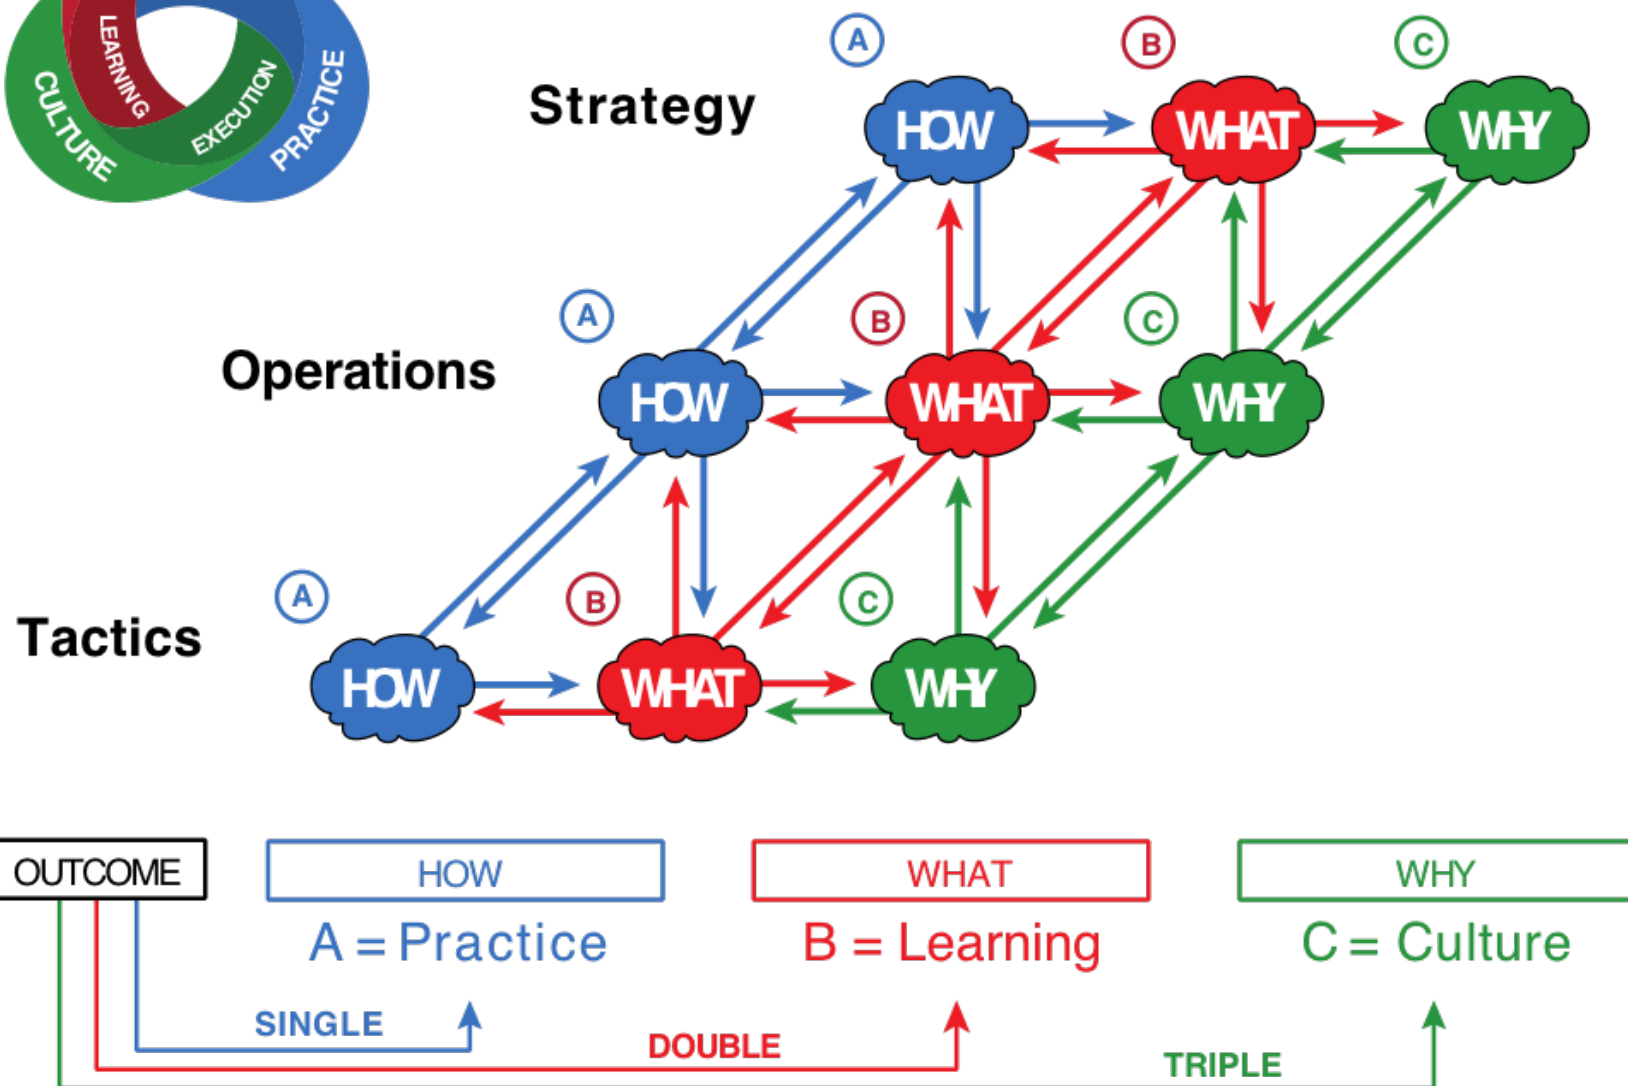

- Backcasting

- Reach back (2027) to a more definable waypoint
- Define archetypes for consideration to address themes in 2027

Federal Health Strategy Map

HHS National Quality Strategy Domains

1. Patient and Family Engagement
2. Patient Safety
3. Care Coordination
4. Population and Public Health
5. Efficient Use of Health Resources
6. Clinical Processes and Systems

Veterans Health Administration Mission, Vision, Principles and Strategic Plan Goals

VHA Mission

Honor America's Veterans by providing exceptional health care that improves their health and well being.

VHA Vision

VHA will continue to be the best place to receive health care benefits by providing exemplary service. This care will be delivered in an environment that supports learning, emphasizes prevention and population health through education, research, and innovation.

VHA Principles

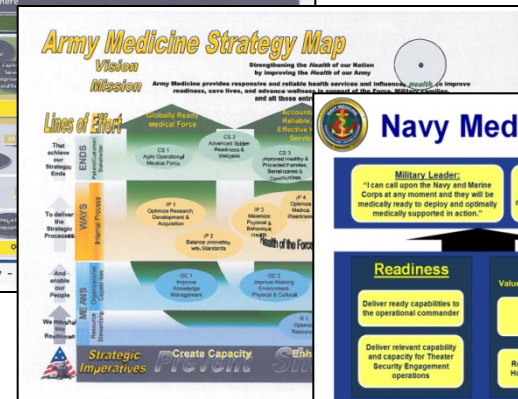

Patient-centered: Prevention
Providing Value: Data-driven

VHA Goals 2013-2018

1. Provide veterans personal and family care
2. Achieve measurable improvement in health and well-being
3. Align resources to deliver exceptional care

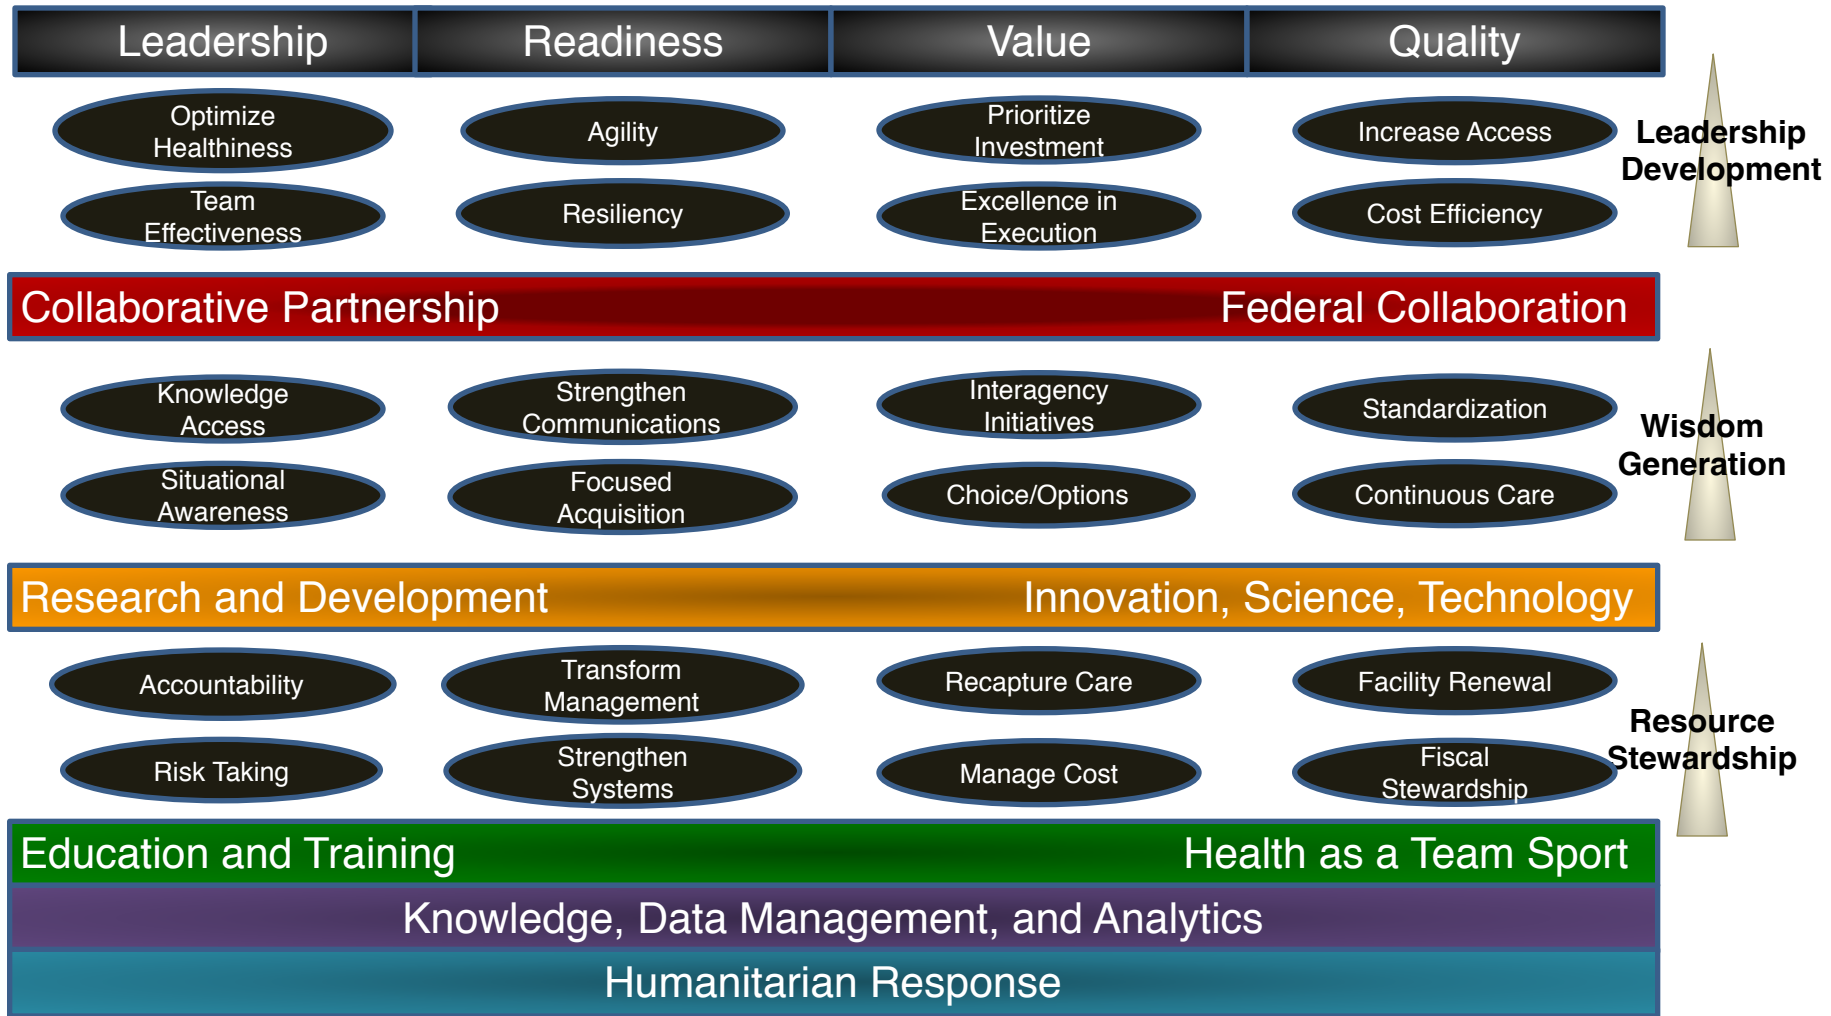

US PHS Goals			
Relevance	Maximized	Ready	Value-added
Shared vision drives mission focus, common perspective, optimized collaboration	Intention towards optimally resourced, trained and integrated Corps	Ensure preparedness focus and articulate duality of mission	Leverage Corps position within and across interagency initiatives to
Duality of mission, Efficiency of personnel use, Alignment with collective strategies	Most accurate and efficient trainings to ensure required tools, Collaborative trainings	Mobilization of Corps aligns interagency efficiencies and mission requirements	
Expertise is applied to higher-order concepts of health and impacts cross-cutting initiatives	Training and experience is developed in models of meta-analysis and leadership	Expertise and resources for preparedness are broadly focused, addressing a determinant health	

- Identify common priorities
- Identify common principles
- Outline common objectives
